7. Work Distribution

Member Contribution as of November 29th, 2021

Figure 7.1 Work Distribution Table

Members Names	% of contribution	Code developed by each member	Modelling Contribution
Tyler	57%		Systems use case diagram. Class diagram. Majority of systems activity diagram. Majority of detail class specification. Deployment Diagram. Sequence diagrams for: Account registration, Property registration, Posting a Property, and Viewing Filtered Property
Tommy	39%		State diagrams for: PropertyViewer, Database, Email, and Input. Sequence diagram for: creating an email. Package Diagram. Worked on detail class specification. Worked on systems activity diagram.
Noel	4%		Generate Summary sequence diagram.
Sina	0%		None

We are including this table to highlight the large discrepancy between member contributions during the design stage of this project.
